PHILIP W. RICHARDS
Principal

You, the students of Fryeburg Academy, have an opportunity to acquire a sound secondary education. Your faculty is composed of well-trained, enthusiastic and talented teachers. Your classrooms and recreational areas are more than adequate for your needs.

The Academy takes the point of view that the scholastic training of students is its first duty. It also provides an excellent program of extra-curricular activities which serves a second, but no less important, goal of training in good citizenship. The Academy expects you to take full advantage of the opportunities offered through faithful study, close attention in the classroom, and vigorous participation in extra-curricular activities.

I hope that you achieve the results which you desire and that your year has been a pleasant one.
